

LABEL FEEDING MACHINE

AP -250LF

Injection Molding Machine : AP Series

- **Material feeding driven by AC-servo motor, lessening energy consumption and feeding precisely.**
- **Adopting close-loop servo-valve control system, acting precisely.**
- **Single cylinder structure with pillar guiding enable the injection stable for high speed injection.**
- **Highly rigid clamping unit is suitable for injection with high speed and high pressure.**
- **Hybrid structure enables fast cycle time and efficient molding.**
